NAYAN DWIVEDI

Professional Summary

Boasting extensive expertise and a proven track record, I offer 5+ years of professional experience specializing in Full Stack Developer. Proficiency extends across a wide array of technologies including HTML, CSS, JavaScript, ReactJS, NodeJS, PHP and Angular. Utilizing MongoDB, SQL, and PostgreSQL databases, I've effectively managed data storage and retrieval processes. Operating within the Node.js environment, I've executed server-side JavaScript with efficiency and reliability. Currently seeking new challenges, intending to apply expertise in React.js, Express.js, Node.js, and MongoDB to deliver top-notch software solutions.
